Re: Docket #E-01345A-05-0816

DOCKETED BY	
-------------	--

Sirs

We are writing to oppose APS's proposal to eliminate our "classic rate schedule". For years APS has asked you to allow them to discontinue this plan. Thankfully each request has been denied and our plan has been frozen. We are asking you to continue denying this request.

APS representatives make it seem as if this change is for our (customer's) own good. We could possibly save money by changing plans. We ask you, why would APS want us to save money? We have no problem with the rate increases that you have approved, they are across the board and everything goes up in price. We do object to changing plans. My husband and I have a small (under 1200 sq.') house and we are extremely careful about our power usage. In the summer our a/c is set at 79-80 degrees and we use fans to keep it comfortable. We use an evaporative cooler in the spring and fall when necessary. We do not run a pool pump nor do we heat with electricity.

We do not want to change plans. We do not need or want a new meter, nor do we want to allow strangers access to our fenced yard when we are not home. (Required for the new energy saving plans)

Please continue to support long time Phoenix residents by denying APS's request to eliminate our "classic rate schedule". We appreciate your time and attention to this matter.

Sincerely,

Tim Blevins
Anna Blevins
